**Nicole Colville : Hidden Passion: The Hidden Series (Volume 3)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hidden Passion: The Hidden Series (Volume 3):

0 of 0 people found the following review helpful. Hidden is very much worth the roller coaster ride!By Pauladeenf71I started this book yesterday. All I could think about when I went back to work in the afternoon was these boys. I have dreamt about them since the first book. As I was driving home yesterday a song came on that I have listened to a lot and it struck me hard. This song was Jamie and Scot's song. To me it is any way. I'd Come For You by Nickelback. I'm driving down the road and busted out in tears. Horrible, ugly, sobbing tears. I haven't been able to think about anything else.The boys keep getting deeper and deeper I twined I to each other's lives. Scot and Jamie keep sneaking around. I don't know what will happen when Valerio finds out. Jamie keeps remembering things from the past. He wants Scot to tell him what happened before and Scot keeps telling him he has to remember on his own. The memories are really starting to affect him.Jamie can't recall what happened but he knows that they hurt each other badly. He and Scot keep meeting up behind Valerio and Rafael's backs. I worry what is going to happen to Valerio. Rafael and Scot have an open relationship so it won't be as bad for Rafael. Jamie says he loves Valerio, but he loves Scot and is in love with Scot.I am so furious now. This is killing me and all I want to do is scream! My heart is literally hurting and I can't stop the tears from flowing. I just want to wrap Jamie up in my arms and hold him. Through all of the things that has happened I am beginning to see Scot a little differently.This is one of the very best series I have ever read! You just have to read this series. Read them in order.Nicole is such an amazing author. These boys that she has so generously shared with us have cost me many tears and late nights. An author that can pull you so deep into a story and make you feel for the characters as if they were alive and real has been given a gift. Nicole was given that gift!2 of 2 people found the following review helpful. Hidden....but definitely worth finding!By CustomerSo I've found that I genuinely like these characters with all the flaws that they possess...the are too much of everything but that's what make them so much fun. Even the pretty, wealthy and successful have insecurities and issues after all.I feel a great deal of compassion for both Jamie and Valerio...perhaps not as much for Scott but then again there are times when I just want to push Scott overboard from his own yacht! Lol...(don't hate me for that Nicole!)The author has given us some great backdrops to place these flawed yet endearing characters, Monaco, Italy, England, yachts, racing and parties. Of course the author has given us lots of reasons to continue reading the series the biggest of which is three little words;To Be Continued!! aarrggghhhh! Just kidding. So far I've gone from being a little indifferent to the first book to being totally pulled in by Nicole and her cast of characters...I'm looking forward to reading the rest of the

series. 1 of 1 people found the following review helpful. Awesome series!! By MM Book Escape (KMac) This is the third book in the Hidden series and it is just as good as the first two. These are not stand alone books, you must read each one and in order to understand what is happening bk they are a continuation from one to the next. The first two I read back to back and they pulled me into the story so much I couldn't do anything else but read to find out what was going to happen. It was hard waiting for the next book but here it is and now I have to wait again for book four lol. This series has wonderful characters and you fall in love with each one of them. You want each one to find love and be happy. The sex scenes are plentiful and very hot which is how I like them. In my opinion this series is a must read. I have placed Nicole in my top 5 authors since starting this series. I use to think nobody could write as well as Mary Calmes and Cameron Dane but Nicole Colville is right there with the best of them. I'm not even going to attempt explaining the story bk I would have to go thru 3 books just to get it down. Just know this is a great series, and everyone who loves the m/m genre, you definitely will not be disappointed. Great job Nicole.

It's almost a year since Jamie Burton began the painful journey of recovering his hidden past with Scot Victore. Even though the past is beginning to become clear for Jamie his present is seriously mixed up. He is forced to live two lives, he moves from his love for his beautiful Valerio to the hidden passion he shared with Scot. His journey is a difficult one, he can't be told the truth, he has to see it for himself and only with the help of Scot Victore can he do that. He's confused by the strong emotions he has returning for Scot, he knows inside there was more, more than he feels for Valerio. But he also knows it hurts to be with Scot. He knows he should love Valerio but the pull he feels for Scot keeps growing and growing. Jamie has to see everything that has happened between them before Scot can be sure what Jamie wants. Running between Jamie and Rafael is hurting him but how can he turn from his beloved Jamie when he is the only person who can help him find the truth.
